

AP PROFIT RECOVERY

PRGX Case Study: Motor Vehicle Manufacturing

CHALLENGE

- ◆ Client initially requested a U.S. primary AP recovery audit.
- ◆ Scope expanded to include contract compliance audit
- ◆ Expanded AP recovery audit scope globally

SOLUTION

- ◆ Revealed major internal process and control issues regarding managing retroactive pricing programs.
- ◆ Significant issues uncovered in client's ERS process, resulting in significant recovery savings, primarily resulting from poorly and untimely management of ERP price files.
- ◆ Retroactive pricing audit revealed millions in recovery.
- ◆ Recommended best practices and detailed procedures for an effective price maintenance process, which was implemented by client, drastically reducing ERP pricing errors.

OTHER RESULTS

- ◆ Best Practice Guidelines for Improvement
- ◆ Rolling Audit provides timely process feedback for improvement
